KÖRTIG

LA GRANDE INTESA

Tutto rettifiche ha da sempre l'obiettivo di offrire al rettificatore un servizio completo puntando sulla qualità.

Dopo anni di collaborazione siamo lieti di comunicarvi la nostra nuova partnership con Körting, marchio tedesco che lavora da più di venti anni con le principali aziende costruttrici del comparto guarnizioni per automotive.

Körting è attrezzata con stampi, attrezzature e materie prime necessarie per

la produzione a 360 gradi di guarnizioni.

Tutto rettifiche offre l'esperienza maturata grazie al rapporto di stima e fiducia costruito nel tempo con le officine di rettifica di tutta Italia.

Il continuo scambio di conoscenza (knowledge) e la consapevolezza di essere due marchi storici che operano ognuno nel proprio settore da diversi anni è il motore di questa nuova collaborazione.

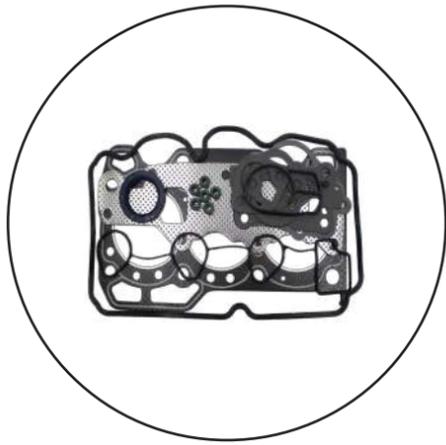

"Quando iniziammo a lavorare con Körting per la creazione delle prime guarnizioni unificate sapevamo che da lì a poco sarebbe nata una stretta collaborazione e che avrebbe portato ad una svolta non solo alle officine di rettifiche, ma anche al mercato automotive stesso!" **dice Antonio Viola CEO di Tutto rettifiche.**

Negli ultimi anni, considerati i continui cambiamenti di matricola motore da parte delle case automobilistiche, abbiamo sentito la necessità di offrire un prodotto che non

fosse ancora presente sul mercato. Da questa esigenza e dopo un'attenta ricerca **sono nati i nostri Kit unificati firmati Kortig.**

La nostra voglia di offrire prodotti di qualità per tutti i comparti automotive ci ha spinto a cercare nuove soluzioni migliorative ed efficienti sia per il settore delle **auto d'epoca**, fin dall'inizio nostra prima passione, che per il **ramo agricolo** da sempre fulcro del marchio tedesco.
